2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

4. The following is an examiner's statement of reasons for allowance:

The type of information that can be put on an RFID tag can be myriad and complex as stated in previous Office actions. However, the current amendment points up the specific advantages of the particular invention; that is, using licensing rights information stored on the tag to at least authorize, validate, and authenticate use of a carrier or reagent in a predetermined assay. This "linkage" is considered unobvious in light of the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
